

BridgeSTOR Named a 2013 Emerging Storage Vendor by CRN

POWAY, CA--(Marketwired - Aug 23, 2013) - BridgeSTOR, LLC, today announced that it has been selected by UBM Channel and CRN as a 2013 Emerging Storage Vendor. The annual list features the most innovative storage vendors who not only deliver technology that is easy to use, but can generate the high margins solution providers require.

The CRN list of up-and-coming technology vendors highlights companies that have recently introduced new products or technology that is highly innovative with the potential of generating the high margins required by solution providers in today's competitive marketplace. CRN's list of emerging players in the storage industry focuses on those who are blazing a trail through innovative online backup services, storage appliances and leading-edge cloud storage platforms.

"We are proud to have been selected as a CRN and UBM Channel Emerging Vendor," says John Matze, CEO, BridgeSTOR, LLC. "Our CRUNCH™ deduplication technology for Microsoft's DPM has enjoyed market success through broad customer acceptance. We are readying our game-changing Cloud gateway product family for announcement in the fall."

The vendors that make up the CRN Emerging Technology Vendor list were founded in 2007 or later, and have revenue under \$1 billion. To view the list and read the editorial accompaniment visit www.CRN.com. The list will also be featured in the August issue of CRN magazine.

BridgeSTOR, LLC

BridgeSTOR, LLC, headquartered in Poway, CA, near San Diego the provider of CRUNCH deduplication for DPM will shortly announce the Cloud Storage File System (CSFS™) to extend and enhance the usability and manageability of cloud storage, including Amazon S3™, Amazon Glacier™, Microsoft Azure and others by transforming complex and sophisticated object-based storage into traditional file-based storage accessible by standard Windows- or Linux-based applications and management tools.
