BridgeSTOR to Demonstrate Breakthrough in Cloud Storage Content Access at NAB 2014 Show in Las Vegas

Unprecedented Global Access to Amazon S3™ Cloud Storage Content will be Available for Show Attendee Interaction and Use from April 7 to 10, 2014

Las Vegas Convention Center NAB Show 2014 – April 8, 2014 – [BridgeSTOR, LLC](#), the company making cloud storage accessible, today announced that the Company's comprehensive suite of Cloud storage access products and technology will be demonstrated in conjunction with the National Association of Broadcasters Show in the Las Vegas Convention Center from April 7 to 10, 2014.

On display - and available for demonstration - will be multiple [Coronado Cloud Storage Gateway](#) appliances and the [Coronado Synchronization Server](#). The Coronado family of [Cloud Storage and Gateway products](#) enables entertainment professionals engaged in the creation, development, management and delivery of content to easily and securely access and collaborate using Object Based Storage or Amazon S3 cloud-resident data across multiple locations without regard to the data's physical location.

Coronado Cloud Storage Gateway Appliances greatly enhance the functionality and value of Cloud storage through a unique set of [features](#) including: Multiple Site access and Global Data deduplication with encryption and compression to greatly reduce the amount of physical content stored; SMB II and NFS protocol support for effortless application integration with existing systems; Active Directory integration for user and group authentication; a local cache that provides local access performance for cloud-resident content plus a comprehensive list of additional features.

A single Coronado Synchronization Server operates in conjunction with multiple Coronado Cloud Storage Gateway Appliances to provide comprehensive, consistent and secure access to cloud-resident content to distributed, world-wide enterprises.

“The Coronado family of Cloud storage access products now enables BridgeSTOR to offer content-centric professionals and organizations the most comprehensive and feature-rich family of Cloud Storage access products available anywhere on the planet today”, says [John Matze](#), CEO, BridgeSTOR, LLC. “BridgeSTOR’s complete and comprehensive set of cloud storage tools enables the entertainment community to easily incorporate cloud storage into content and file sharing and workflow collaboration strategies.”

BridgeSTOR, LLC

BridgeSTOR, LLC, the Cloud Storage Access Company, headquartered in Poway, CA, near San Diego has created a [Cloud Storage File System \(CSFS™\)](#) to extend and enhance the usability and manageability of cloud storage, including Amazon S3™, and other cloud vendors by transforming complex and sophisticated object-based storage into traditional file-based storage accessible by standard Windows or Linux-based applications and management tools. BridgeSTOR strives to make cloud data access simple and affordable to organizations of all sizes.
